Large clear acrylic fish tank aquariums for decoration

So clear tank! Had a glass tank but it developed a leak. If you had an acrylic tank years ago so decided to replace your leaking glass tank for another acrylic tank. Could not like it better! It's light weight. And it looks terrific! The lines of the tank are clean and there is no annoying black frame holding it together. It's like that there is no tank to interfere with the viewing of the fish.
